Jobsite COVID-19 Symptom Screening

While more people are getting back to work, companies are taking precautions necessary to keep their employees safe. One way companies are choosing to obtain this is by having employees/visitors answer a series of screening questions about their recent health and activities.

Applied Data Consultants developed a questionnaire to be administered on an app - powered by jotform.com - a form building website fully customizable to add logos, questions and information desired by any given company. Answers and information can be set to automatically fail the form and not allow the employee to begin working. For instance, if the answer to question 1a below was “Yes” a message will appear:

Based on your response, you are temporarily denied entry to this office, warehouse, or project site. Please depart the premises immediately. We welcome you back once you are symptom-free.

Each company will be supplied with a unique QR code to post at their jobsite. Using their personal mobile devices, employees/visitors will simply scan the QR code with their camera or enter the url in their web browser sending them directly to the form. A sample QR code can be found on page 3.

Pricing: $150 one time setup fee
Companies with 1-5 locations: $50 / year
Companies with 6-15 locations: $75 / year
Companies with 15+ locations: $100 / year

DISCLAIMER: *The COVID-19 Symptom Screening Tool does not provide medical advice or connect employees directly to a health care provider. The Screening Tool relies on the information provided by the user which is not independently verified. COMPANY assumes no responsibility for how you use the information you obtain from this Screening Tool. In no event shall COMPANY, be liable to you or have any responsibility of any kind to you under any theory of liability or indemnity related to or arising out of your use of the information presented or contained herein. While COMPANY attempts to use the most up-to-date information, medical information changes frequently and some information may be out of date. The information in this tool is offered AS-IS and such information is used and relied upon entirely at your own risk. Users are solely responsible for any liabilities arising from the use or misuse of the information in this Screening Tool. If you have questions about the information contained in or made available through this Screening Tool, please contact a healthcare professional. No physician-patient relationship is created by use of this Screening Tool.*

A step by step “How to” page will also be supplied to post near the QR code for the employees to follow. (Example supplied)

Once the form has been completed and signed, the employee will press submit and the information will be integrated and saved into a spreadsheet, visible by those with such permissions. Email notifications can be sent out to those monitoring the forms. Information in the notification includes the employee’s name, date and time the form was completed. If the employee chooses, they can enter an email at the bottom of the form to receive a copy of their completed questionnaire. The email the employee will receive will have the following information:

ADC DEMO - VIRUS DOCUMENTATION FORM
